## INTRODUCTION

A QR code tracking system for the blockchain-based distribution supply-chain is Possible, Purpose of HCBRS Coin, a Utility coin that can be used in various ecosystems, has been issued to make the infrastructure easy and transparent.

After successfully growing this project in the local we collectively moving forward in this innovation and want all of you to be a witness of this revolutionary transformation. Blockchain Technology enables decentralized and distributed systems, removing the need for a central authority or intermediary. The decentralized nature of blockchain allows for increased transparency, trust, and security in various domains, such as finance, supply chain, and voting systems. It eliminates the need for intermediaries, reducing costs and improving efficiency.

### 1. Patent

ISO9001 :2015 / QSA certification

## 2. Technology and patents

According to quantum physics, all things in the universe are made of visible matter, but the minimum unit of matter is composed of atoms, and when the atom is split, electrons and protons rotate around the nucleus to form an organ field, creating vibration energy called waves.

Therefore, all things have their own vibration waves, and the various organs that make up the human body are also made up of their own waves.

As we enter the aging era, increased people are suffering from pain or various diseases, and due to the limitations of modern medicine, more and more incurable diseases are not even aware of the name of the disease.

Our bodies are getting sick due to environmental pollution, fine dust, electromagnetic waves, bacteria, viruses, chemical fertilizers, and pesticides.

As a result, pathological waves in our body break the balance of the energy system in the five intestines, causing pain or various diseases.

Based on quantum wave biology, we developed a fermentation additive that maximizes the efficacy of all substances by micronizing molecular clusters of all products using the nano-bio fermentation technology by cultivating microorganism that produce waves in areas such as those from health cells

an overview of the Technology

After combining minerals that emit beneficial energy fields and various herbs with various effects in an appropriate ratio, we developed a super microorganism that releases powerful energy waves by culturing useful microorganisms in the culture process while changing temperature, humidity, and PH Levels.

In addition, for convenience, it is a quantum wave biotechnology that can be applied to various fields by developing a ceramic microorganism house so that these microorganisms can usually be dormant and active when in contact with water.

### GPS Quantum Therapy

GPS Quantum Therapy, developed by our company, is a self-healing method that creates a human wave map based on quantum medicine and resonates cells with healthy waves to balance the energy system of the five intestines.

Based on quantum biology theory, natural pesticides, organic Fertilizer additives, and feed additives developed by adding fermentation additives that produce waves in the same area as those produced in healthy cells, and natural sterilizer combined with nano silver and biotechnology improve natural healing power.

It is a self-healing system that can heal pain or all disease diseases on its own when the energy fluctuations of the human body's five intestines are balanced by this energy resonance.

© Quantum wave water generation filter device (Patent No. 10-1551606)  
Patent. Certificate (Attached Patent Certificate)

### <Overview of Technology>

The core of quantum wave Functional water filter device is the ceramic microorganism house that microorganism is dormant and become active when it meets water.

It is a Functional filter device that transfers quantum bio wave energy to agricultural and marine products by the action of useful microorganisms beneficial to the human body as general water passes through the filter device. (Patent No. 10-1551606)

Water passing through this filter device can also be used as a raw material for Functional health foods because it can be a Functional agricultural and fishery Livestock product that releases quantum wave energy beneficial to the human body.

## Quantum wave complex Mineral Functional Water Generation Filter Device

It is a Functional filter device that combines patented Technology to convert general water into biological information Functional water by complex useful microorganisms and minerals.

Fertilizer substitute: Promotes crop growth by complex minerals and Functional water containing useful microorganisms.

Eco-friendly crop cultivation: It can increase added value by cultivating it as a Functional agricultural product that activates cells as bio-information energy spreads to crops.

## 2) Technology differentiation and originality 2-1)

### Overview of Technology

#### Quantum Wave Resonance Water Generation Filter Device

It is a Functional filter device that combines four patented technologies and converts general water into quantum wave Functional water by complex useful microorganisms and minerals.

**Fertilizer substitute: Promotes crop growth.**

-Eco-friendly crop cultivation: It is a Technology that promotes the growth of agricultural and Livestock products because energy waves also spread to crops to activate cells.

In addition, since quantum wave energy beneficial to the human body is directly transferred to agricultural and marine products, it increases the freshness of existing agricultural and fishery Livestock products, improves meat quality and taste, and can be used as an additive for Functional foods that release energy fields.

Filters that generate strong energy waves can be applied in various fields because they can be used not only for general water but also for industrial purposes such as cooking oil, biofuel, and Liquefied gas.

#### **. (Biofuel Additive Project) Patent No. 10-1364145)**

This project uses bioethanol extracted from sugarcane as an automotive fuel additive.

It's a business that uses. Bioethanol, which extracts sugarcane grown using bio-microorganisms cultured using the bio-energy method, a patented Technology on sugarcane farms, increases thermal efficiency while releasing strong energy fields. When used as a fuel additive for gasoline and diesel engines, 99.9% highly concentrated bioethanol reduces fuel efficiency.

Since two-wheeled vehicles have a small engine and a very high engine rpm, they

have no choice but to emit a lot of pollutants, so the injection of biofuel additives immediately increases engine power.

In Southeast Asian countries, Motorcycles are widely distributed as a means of transportation, and air pollution is serious.

Biofuel additives have many effects on reducing pollutants, and specifically, soot, carbon monoxide, carbon dioxide, nitrogen oxides, etc. can be greatly reduced.

The company has developed and completed a biofuel additive that releases strong thermal energy by applying microorganisms cultured by the bioinformation energy method to ethanol extracted from sugarcane and has already prepared a mass production system there.

The characteristic of biofuel additives is that once injected, they maintain their efficacy for three months due to their energy efficiency, so users have a high practical economic benefit effect at a low cost.

#### **(Biofuel Additive Efficacy) Motorcycle 20 ml, Gasoline/Diesel 50 ml**

Engine power enhancement

Emission savings (60% to 80% reduction)

Reduce engine noise.

Vehicle fuel reduction (10% to 20% fuel reduction)

Increased vehicle engine life

Reduction of odour in the vehicle

### **3. Eco-friendly Bio Flame Resistance Project**

Eco-friendly bio-Flame retardants are made of transparent liquid containing nano bio silver, so they are harmless to the human body and not only have Flame retardant effects, but The body's also beneficial bioenergy is released, which can relieve mold removal effects or birdhouse syndrome. Simply, since it can be coated using a spray, it can be applied to all fields of wood, fiber, and plastic.

Competitive products mainly have only Flame-retardant functions, but this development is an eco-friendly product and contains biomaterials that can transmit energy waves to Flame retardant functions, which can help health as well as a pleasant environment.

Coating livestock farms not only prevents fires, but also removes the smell of livestock manure by bioenergy fields and promotes livestock growth.

3. Natural mineral bio-microbial liquid Fertilizer and natural pesticides (Patent No. 10-1718211)

As a patented Technology, it is a Fertilizer additive containing various minerals while releasing a bio-information energy field.

- Nutrient ratio of native bio-microbial
- soil-improving microbial liquid ratio
- bioelectrode positing agent
- biological natural pesticides

The use of four types of Fertilizer additives for bio-information energy Functional filters not only increases production but also can produce bio-information energy agricultural products through eco-friendly organic methods.

## 2. (Biofuel Additive Project) Patent No. 10-1364145)

This project uses bio ethanol extracted from sugarcane as an automotive fuel additive.

Bio ethanol, which extracts sugarcane grown using bio-microorganisms cultured using the quantum wave energy method, a patented Technology on sugarcane farms, increases thermal efficiency while releasing strong energy fields. When used as a fuel additive for Gasoline and diesel engines, 99.9% highly concentrated bioethanol reduces fuel efficiency.

In particular, since two-Wheeled vehicles have a small engine and a very high engine rpm, they have no choice but to emit a Lot of pollutants, so the injection of biofuel additives immediately increases engine power.

In Southeast Asian countries, Motorcycles are widely distributed as a means of transportation, and air pollution is serious.

Biofuel additives have many effects on reducing pollutants, and specifically, soot, carbon monoxide, carbon dioxide, nitrogen oxides, etc. can be greatly reduced.

The company has developed and completed a biofuel additive that releases strong thermal energy by applying microorganisms cultured by the nano biotechnology to ethanol extracted from sugarcane and

has already prepared a mass production system there.

The characteristic of biofuel additives is that once injected, they maintain their efficacy for three months due to their energy efficiency, so users have a high practical economic benefit effect at a Low cost.

- (Biofuel Additive Efficacy) Motorcycle 20 mL, Gasoline/Diesel 50 mL
- Engine power enhancement
- Emission savings (60% to 80% reduction)
- Reduce engine noise.
- Vehicle fuel reduction (10% to 20% Fuel reduction)
- Increased vehicle engine Life
- Reduction of odour in the vehicle

### 3. Eco-friendly Bio Flame Resistance Project

Eco-friendly bio-Flame retardants are made of transparent Liquid containing nano bio silver, so they are harmless to the human body and not Only have Flame retardant effects, but The body's Beneficial quantum wave energy also is Released, which can relieve mold removal effects or birdhouse syndrome.

Simply, since it can be coated using a spray, it can be applied to all fields of wood, fiber, and plastic.

Competitive products mainly have only Flame-retardant functions, but this development is an Eco-friendly product and contains quantum wave biomaterials that can transmit energy waves to Flame retardant functions, which can help health as well as a pleasant environment.

Coating Livestock farms not only prevents fires, but also removes the smell of Livestock manure by bioenergy fields and promotes Livestock growth.

### 3. Naturals mineral bio-microbial Liquid Fertilizer and natural pesticides (Patent No. 10-1718211)

As a patented Technology, it is a Fertilizer additive containing various.

minerals while releasing a bio-information energy field.

- Quantum wave microorganism Fertilizer additive
- soil-improving microorganism fermentation additive
- bio coating Liquid
- quantum bio natural pesticides

The use of four types of Fertilizer additives for quantum wave energy Functional filters not only increases production but also can produce quantum wave energy agricultural products through Eco-friendly organic methods.

Fertilizer additive cultivation comparison experiment

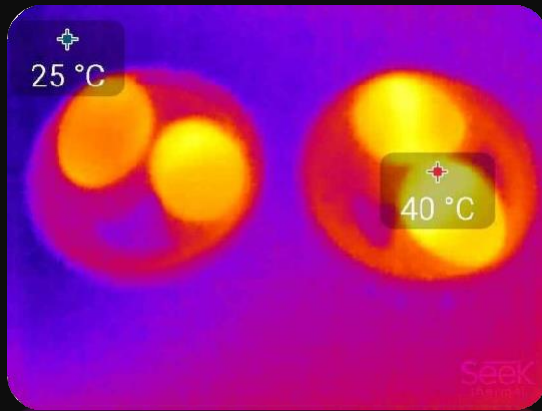

#### 4. Quantum Wave Animals Feed Additive (Patent No. 10-1552810)

It is an additive produced by the nano-bio fermentation method of soldier fly with herbs and is mixed with existing feed within the range of 0.3~2% with quantum wave species cultured with patented Technology.

It improves the immune function of Livestock without antibiotics, reduces the fatality rate and increases the acid rate in the spawning system. In particular, the smell of Livestock feces is greatly reduced.

In the process of fermentation of Livestock feed, bioenergy is transferred to help improve the meat quality of Livestock, and eggs from the spawning system are more than twice as fresh, It is a Functional egg that not only has no unique fishy smell but is rich in minerals and releases bioenergy that is beneficial to the human body.

Norma eggs

quantum wave eggs

When you eat quantum wave mineral eggs, heat energy is transferred through eggs, which increases the heat energy in cells by resonance, making it a Functional food that helps your health.

### Super chicken

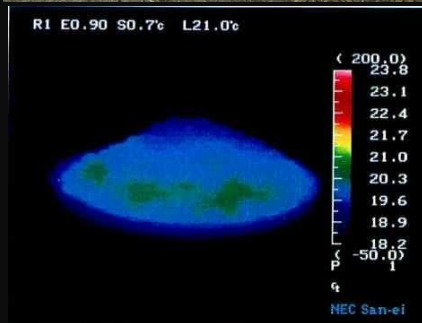

Quantum wave energy released from feed additives activates chicken cells, strengthens digestive functions, enhances immunity, and improves meat quality.

Quantum wave energy is also transferred to chickens, which can shorten the frying time during frying, and the taste becomes Light.

Nutrition is micronized and absorbed relatively quickly by the human body.

Normal rice

Quantum wave rice

Before

After

In this experiment, quantum bio-organic rice was taken 30 minutes after ingestion. Photographs indicate that the heat energy in the body has increased.

## 8. QR Code Tracking System for Blockchains-Based Distribution Supply Chain

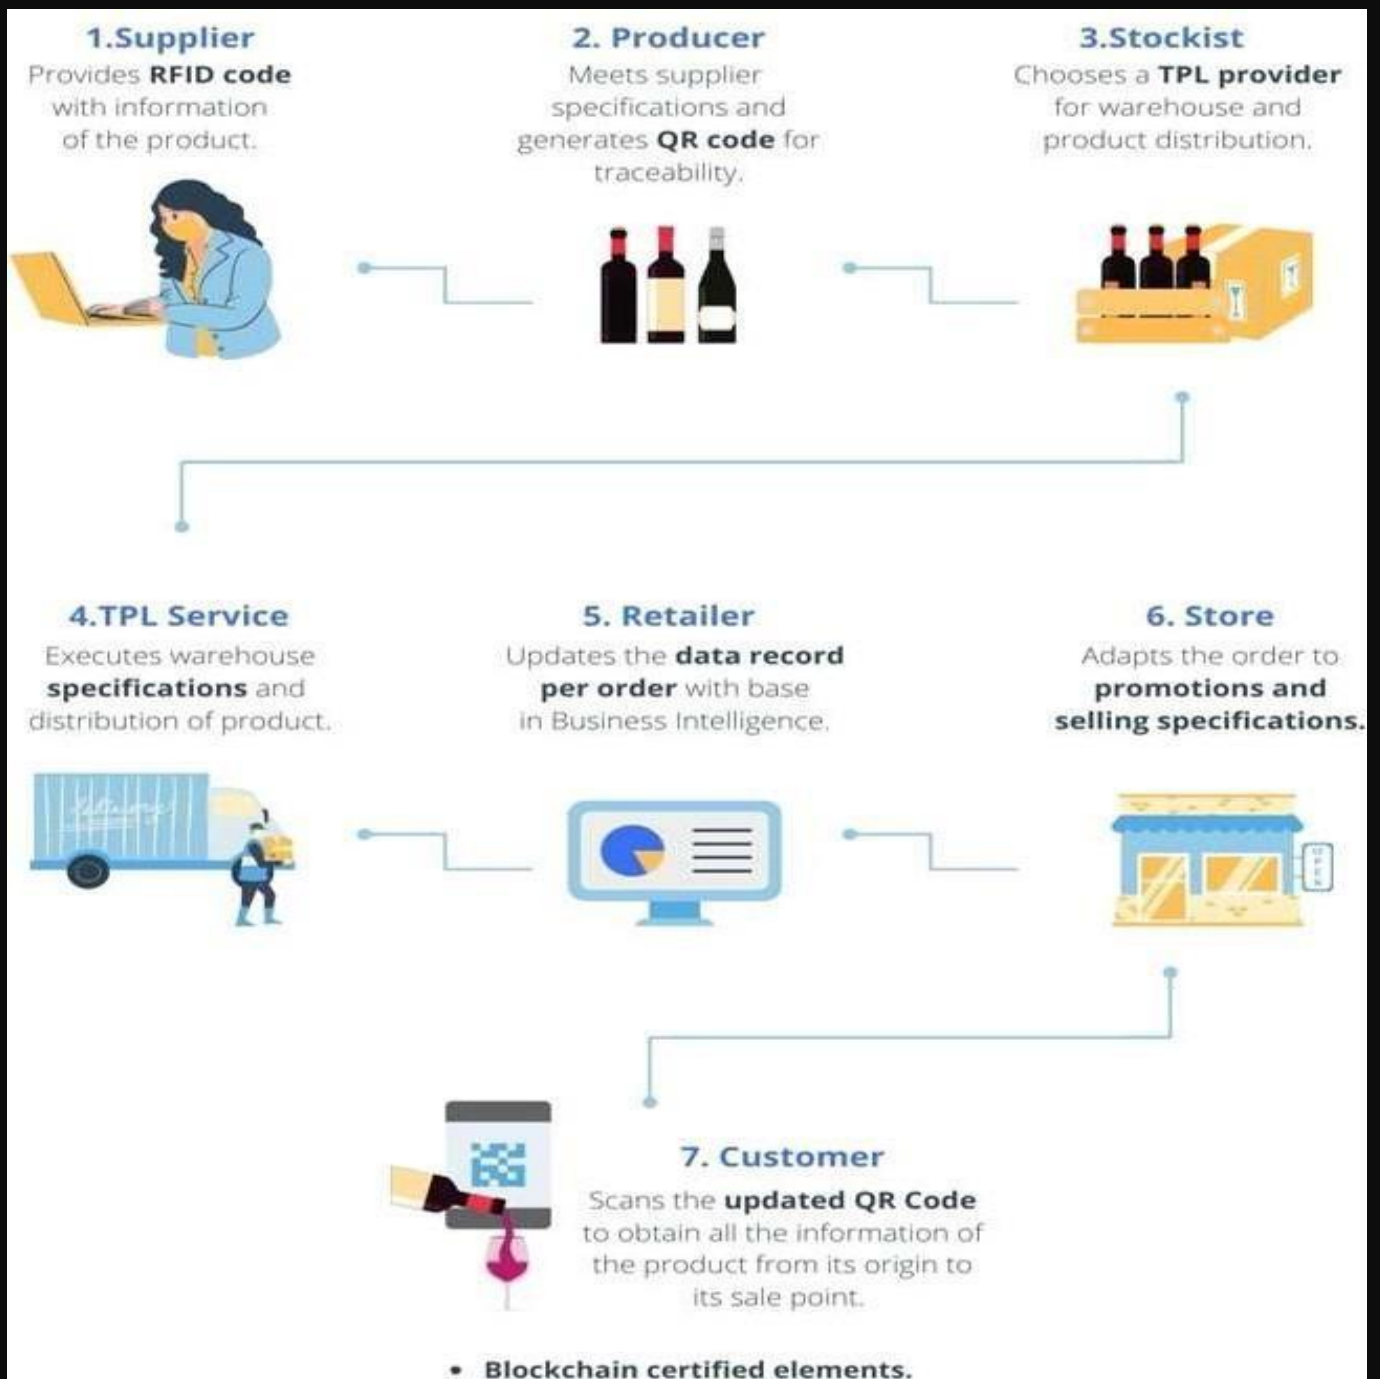

In the ever-evolving Landscape of modern consumer expectations, supply chain transparency and adaptability have become paramount.

Traditional supply chains often struggle to address challenges Like

recalls and unexpected disruptions effectively.

However, the advent of manufacturer-to-consumer solutions, coupled with QR code systems and blockchain Technology, has ushered in a new era of supply chain management.

This article delves into the transformative potential of this approach across three diverse industries: agriculture, beauty products, and garments. By Leveraging QR codes for enhanced transparency and blockchain Technology for disruption resilience, manufacturers are paving the way for a more informed and secure consumer-product relationship.

the integration of QR code systems and blockchain Technology within the manufacturer-to-consumer supply chain paradigm is a transformative step for industries such as agriculture, beauty products, and garments.

These innovations not only empower consumers with unparalleled.

transparency but also fortifies manufacturers against unexpected challenges.

As these technologies continue to advance, they have the potential to reshape

industries and elevate the relationship between consumers and the products they cherish.

#### QR Code System with Blockchains:

Enhancing Transparency and Verification

#### QR Code Integration:

Each product is assigned a unique QR code Label during its manufacturing process. The QR code is prominently displayed on the product's packaging.

**Consumer Interaction:** Consumers can easily scan the QR code using their smartphones' camera or a QR code scanning app.

**Instant Access to Information:** Scanning the QR code directs consumers to a dedicated digital Platform or webpage.

**Blockchains Verification:** The information displayed on the Platform is Linked to a blockchain system. Blockchains ensure that the data is tamper-proof, secure, and cannot be altered. remains accessible, maintaining consumer confidence.

#### Traceability and Authentication:

Consumers can access a wealth of information about the product's journey, sourcing, and attributes. Blockchains confirm the authenticity of the information, assuring consumers of its accuracy.

**Lab Testing and Certificates:** Lab testing certificates and quality assurance records are securely stored on the blockchain. Consumers can access these documents via the QR code Platform.

#### Ingredient Details and Formulations:

For beauty products and agriculture items, consumers Learn about the ingredients used, their benefits, and the formulation process.

#### Ethical and Sustainable Practices:

For beauty and garment industries, consumers gain insights.

into ethical sourcing, sustainable manufacturing, and Eco-friendly practices.

#### QR Code System with Blockchains:

## Enhancing Transparency and Verification

### Recall Management and Updates:

In case of recalls or updates, manufacturers can modify information on the blockchain, ensuring consumers receive accurate, real-time details.

### Consumer Empowerment:

Consumers make informed decisions based on accurate, verified data. The system empowers them to support products that align with their values.

### Enhanced Trust and Loyalty:

The combination of QR code convenience and blockchain security fosters trust in your brand.

Consumers appreciate the transparent, accountable approach.

### Responsive Supply Chain:

**MEMORANDUM OF UNDERSTANDING (MOU)**

**Organization 1: Primary Contact:**  
Name: **SHRIKANT BHAIRAVJI, PRESIDENT**  
Phone: +91 98711 16762  
Email: **shrikantbha@gmail.com**

**Organization 2: Primary Contact:**  
Name: **DEEPIKA GUJARATI, CEO/CO-FOUNDER**  
Phone: +91 98097 72647  
Email: **deepikaguarati@gmail.com**

**Purpose:**  
The purpose of this Memorandum of Understanding (MOU) is to clarify the expectations, roles, and responsibilities of the collaboration between our two organizations (formed as **DEVELOPMENT OF INDIAN BIO-ORGANIC AGRICULTURE INDUSTRY BY ORGANIC AND FARMING/ANIMAL DIVERSITY AND AGRI-CULTURE**). This is not a legally binding agreement.

**Area of Collaboration:**  
It is the intent of the Parties to jointly collaborate on the implementation of the Project.

**Background:**

The Project has the following objectives:

- **RAJY BIO HERMETSIAION TECHNOLOGY** applied to organic, Herb Farm
- **RAJY BIO COOKING OIL PROJECT** applied to food processing industry
- **RAJY BIO FUEL PROJECT** applied to fuel industry to save energy and work friendly environment

**Timeline:**

- The overall project will take place between 1<sup>st</sup> September 2022 and 31<sup>st</sup> December 2023

**Roles and Responsibilities:**

Both organizations will:

- Communicate as needed regarding the implementation and progress of the project

**Organization 1 will provide:**

- Bring hermet, supply organic inputs essential to the farmers and related organization to starting the organic agriculture
- Use this technology to start own plant/Herb and produce farm
- Provide Training with education system to organic sector and farmer

**Organization 2 will provide:**

- Training/education/Use to implement this technology in the industry
- Providing the organic technology based materials and products
- Providing the organic Herb Farm solutions

**Coordination and Communication:**

Most of the communication about the Project will take place between the two primary contact persons.

The primary contact persons are:

**KISHAN SENNA**  
Shri Rajy No. 102111/2022  
Herb Farm No. 10211/2022

**PRESIDENT**

**Organization 1: Primary Contact:**  
Name: **SHRIKANT BHAIRAVJI, PRESIDENT**  
Phone: +91 98711 16762  
Email: **shrikantbha@gmail.com**

**Organization 2: Primary Contact:**  
Name: **DEEPIKA GUJARATI, CEO/CO-FOUNDER**  
Phone: +91 98097 72647  
Email: **deepikaguarati@gmail.com**

**Modification to this MOU:**  
This Memorandum may be modified with supplemental written agreement, signed by the parties and can be terminated in writing, in whole or in part, by consensus of the parties.

**Acceptance/Agreement:**  
The following parties jointly agree to the roles and responsibilities delineated in this Memorandum of Understanding.

**Organization 1:**  
Organization Name: **SHRIKANT BHAIRAVJI, PRESIDENT**  
Minister of Agriculture, Department of India

Printed Name: **SHRIKANT BHAIRAVJI**  
Shri Rajy No. 10211/2022

Signature: *[Signature]* Date: *[Date]*

**Organization 2:**  
Organization Name: **DEEPIKA GUJARATI, CEO/CO-FOUNDER**

Printed Name: **DEEPIKA GUJARATI**

Signature: *[Signature]* Date: *[Date]*

**Organization 3:**  
Organization Name: **DEEPIKA GUJARATI, CEO/CO-FOUNDER**

Signature: *[Signature]* Date: *[Date]*

HCBR Coin is distributing its power into the designed ecosystem empowering the environment friendly, being environmentally friendly, there are several considerations that a platform or technology can consider.

Pointers are mentioned below:

**Energy Efficiency:** The platform can strive to optimize its energy consumption and minimize its carbon footprint.

**Renewable Energy:** The platform can prioritize the use of renewable energy sources, such as solar.

**Education and Awareness:** The platform can play a role in raising awareness and educating users about environmental issues. It can provide information, resources, and experiences within the virtual world.

## Internet Shopping

HCBRS has the potential to significantly impact various aspects of internet shopping, offering several benefits and addressing common challenges.

**Supply Chain Transparency:** HCBRS Blockchain enables end-to-end visibility and transparency in supply chains, particularly for industries like fashion, luxury goods, or electronics. By recording every step of the supply chain on the blockchain, from production to delivery,

**Loyalty Programs and Rewards:** HCBRS Blockchain-based loyalty programs and reward systems can provide a seamless and secure way for customers to earn and redeem loyalty points or rewards across different online retailers.

**Peer-to-Peer Marketplaces:** HCBRS facilitates the development of decentralized peer-to-peer marketplaces, where buyers and sellers can transact directly without intermediaries. These marketplaces can reduce transaction fees, enable secure escrow services.

**Smart Contracts for Dispute Resolution:** Smart contracts, which are self-executing contracts with predefined rules encoded on the blockchain, can automate and streamline dispute resolution in online shopping.

## Offline Shopping

HCBRS token can also have certain benefits and use cases for offline shopping, although their adoption in this context is still relatively limited. Here are a few ways in which HCBRS token.

**Faster Transactions:** Using HCBRS token the transactions can be faster compared to traditional payment methods, especially for peer-to-peer transactions. can be helpful in offline shopping:

**Enhanced Security:** using HCBRS token will provide enhanced security features compared to traditional payment methods. Transactions made with HCBRS are secured by cryptographic techniques,

**Micropayments and Donations:** Cryptocurrencies are well-suited for micropayments, HCBRS enabling users to make small-value transactions easily. And HCBRS makes it easier to send small amounts without the need for high transaction fees.

### online Games

HCBRS offers several advantages and use cases in the context of online games. Here are some ways in which can be helpful in online games:

**Interoperability between Games:** HCBRS and blockchain protocols can enable interoperability between different games. Players can use their in-game assets or currencies across multiple games that support the same blockchain network and users can easily exchange their crypto with HCBRS token using our bridge on platform.

**Anti-Cheating and Security:** using HCBRS technology can help combat cheating and fraud in online games. By recording game states and transactions on the blockchain

**Cross-Platform Compatibility:** HCBRS and blockchain-based assets can be compatible across different gaming platforms and devices. This allows players to access and use their in-game assets seamlessly, regardless of the platform they are playing on.

## FX Margin Trading

Everything can be achieved in this digital age, only if you have a phone and an efficient Internet connection. Life one-coin coins provide you with the key products that are very important to make a comfortable life. These products are listed below:(a) Life one coin margin trading) Purchase of hash power) P2Ps exchange What is Margin Trading? Margin trading is an asset trading strategy that uses assets supplied by a 3rd party. Margin accounts help investors to access higher amounts of capital as compared to conventional trading accounts, enabling them to exploit their roles. Margin investing effectively magnifies trading outcomes such that traders can understand greater gains on profitable transactions. In low-volatility markets especially the international Forex market, this opportunity to extend trading outcomes allows margin trading quite common.

The trader would be expected to contribute a percentage of the overall order value when a margin trade is introduced. This initial cost is known as the margin, and the leverage term is generally related to it. In other terms, to establish leveraged trading, 4margin trading accounts should be used and the leverage represents the ratio of the funds borrowed to the margin. For opening both long or short positions, margin trading could be used. A long position stands for an expectation that the asset value will go up, while the reverse is expressed in a short position. Whilst the margin position is available, the properties of the investor serve as leverage for the money borrowed.

As most brokerages claim the right to compel the selling of these assets in case the market falls against their position (above or below a certain threshold), this is important for traders to know. Soon, the scale of the market for margin trading will undergo exponential growth.

The market is estimated to grow at a rate of 30 percent. Because of its 5potential to give greater return, which is unlikely with conventional trading, smaller large investors give priority to margin trading instead of just traditional trading. Basic Feature of Life One Coin You'll have to contribute a percentage of the overall order value when you start a trade with Life one coin. This cost you made at this early phase is referred to as the margin and is linked with the leveraging concept. In other words, you can do margin trading with your Life one coin margin trading accounts. The leverage is nothing more than the proportion to the margin of the borrowed funds. If you really must sell at 10:1 leverage.

For a trade cost of \$1000, you will need to invest \$100. Life trading with one coin margin helps you to enable both short and long positions. A long position represents an expectation that the asset's price will rise, while a short position is just the other way around. Life coin margin trading by bidirectional trading enables the reduction of losses. There have always been two cryptocurrencies being traded in every trade. One is purchased while the others are sold. This is how each trade works. The other would experience a decrease in its value if one currency experiences an increase in value. In Life, therefore one coin, either the quote coin or the base coin, will always increase in value and the traders always seem to have a good chance of gaining.

Thus, bidirectional trading on the Life one coin trading Platform helps you to position trades that are unaware of the market direction.

**Multiple Wallets (Stake Swap Airdrop)** HCBRS is coming up with the multi crypto currency wallet through users can get benefited by putting their money on Stake and get the Airdrop tokens and also be able to Swap their token with other Crypto. a multi- crypto wallet provides a convenient and centralized solution for users who hold different types of digital assets.

**Multi-Currency Support:** The primary feature of a multi-crypto wallet is its ability to support a wide range of cryptocurrencies. These wallets typically support popular cryptocurrencies like Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), and others, as well as various ERC-20 tokens.

**Enhanced Security:** Multi-crypto wallets employ robust security measures to protect users' assets. They often include features like two-factor authentication (2FA), encryption, and backup options to ensure the safety of private keys.

**Cross-Platform Accessibility:** These multi-crypto wallets are available as mobile apps for iOS and Android, as well as web-based platforms. This cross-platform accessibility allows users to access their wallets and manage their cryptocurrencies from various devices, supplying flexibility and convenience.

**Coin exchange:** Coin exchanges are online platforms where users can buy, sell, and trade various cryptocurrencies. The prominent part of our HCBRS ecosystem where users trade one cryptocurrency for another. For example, users can exchange Bitcoin for Ethereum or Litecoin for Ripple. HCBRS coin exchange will provide order books that display buy and sell orders from users, allowing them to place market or limit orders to execute trades.

**Fiat-to-Crypto Trading:** HCBRS coin exchanges allow users to buy cryptocurrencies using fiat currency. Users can deposit funds in their local currency and purchase cryptocurrencies like Bitcoin or Ethereum directly on the exchange.

**Trading Tools and Charts:** HCBRS coin exchanges provide trading tools and charts to assist users in analyzing market trends, price movements, and historical data. These tools often include candlestick charts, technical indicators and order book depth charts.

**Regulation and Compliance:** Coin exchanges operate under different regulatory frameworks depending on their jurisdiction. Some exchanges adhere to strict regulatory standards, implementing AML and KYC procedures to ensure compliance with local laws and regulations.

## Metaverse Platform

HCBRS provides Metaverse platform of virtual universe that aims to provide an immersive and interactive environment for users to engage with each other.

**Virtual Worlds:** Metaverse platforms typically consist of multiple virtual worlds or environments that users can explore. These worlds can be diverse, ranging from realistic simulations of real-world locations to fantastical and imaginative realms.

**User-generated Content:** Users are often encouraged to contribute to the Metaverse platform by creating and sharing their own content.

**Immersive Technologies:** Metaverse platforms may incorporate immersive technologies like virtual reality (VR) and augmented reality (AR) to enhance the user experience and create a more immersive and realistic sense of presence within the virtual environment.

# ROADMAP

## Brainstorming & Token Development in September 2023

# TOKEN DISTRIBUTION

Token distribution will be performed by the following.

Airdrop	:	10 billion
ICO	:	10 billion
Advisor	:	3 billion
Foundation holdings	:	7 billion

HCBRS official information used for the purpose of token development.

## HCBRS

Name	:	HEALING CELL COIN
NETWORK	:	ERC-20
Ticker	:	HCBRS
Total Supply	:	30,000,000,000 (30 Billion)
Decimal	:	8

### HCC Privacy Policy

This Privacy Policy constitutes a part of <https://healingcell.info/> Terms and Conditions (the “Terms”).

The terms used in this Privacy Policy shall have the same meanings as in the Terms except

as otherwise provided herein.

This Privacy Policy explains how HCC coin and <https://healingcell.info/> Operators collect, use,

process, disclose, share, transfer, and protect personal information obtained through.

<https://healingcell.info/> and its partners. The terms “we,” “us,” and “our” refer to <https://healingcell.info/> and

<https://healingcell.info/> Operators. When we ask for certain personal information from users, it is because we are required by applicable laws or government orders to collect such information, or it is relevant for our specified purposes. Please refer to the separate Cookies

### Policy for the exact use of cookies.

Please carefully read the full content of this Privacy Policy. When visiting the <https://healingcell.info/>

website, regardless of whether you register for or log in, you acknowledge,

understand, and consent to all articles described in this Privacy Policy. We will not use your personal information for any purpose not covered in this Privacy Policy, the Cookies Policy, or the Terms without prior notification to you and your consent.

This Privacy Policy has incorporated elements from the General Data Protection Regulation (GDPR) as we act in accordance with its personal information processing rules within the European Economic Area (EEA). We utilize standard contract clauses, rely on the European

Commission's adequacy decisions about certain countries, as applicable, and obtain your consent for these data transfers to third countries if required by applicable laws.

## 1. TYPES OF DATA WE COLLECT

The types of Personal Data that we collect directly from you, or third parties depend on the circumstances of collection and the nature of the service requested or transaction.

undertaken. It may include (but is not limited to):

(a) personal information that links back to an individual, e.g., name, date of birth, and other

personal identification numbers.

(b) contact information, e.g., address, phone number and email address, Ethereum wallet

address.

(c) Technical information, e.g., IP address for API services and logins

(d) statistical data, e.g., hits to the website.

## 2. HOW DO WE COLLECT PERSONAL DATA?

This Privacy Policy covers any Personal Data provided to us:

(a) when you engage with our products and services.

(b) when you create an account with us.

(c) under any other contractual agreement or arrangement.

Some of the other ways we may collect Personal Data shall include (but is not limited to):

(a) communications with you via telephone, letter, fax, and email.

(b) when you visit our website.

(c) when you contact us in person.

(d) when we contact you in person.

(e) when we collect information about you from third parties (such as the social graphs available from social media companies); and other channels including our support helpdesk.

(f) Possible extrapolation of other information by processing the data.

## 3. WHAT OTHER DATA DO WE COLLECT?

From our website and services, we collect your Personal Data in the following ways:

(a) IP address We use your IP address to help diagnose problems with our server and to administer our website. IP addresses are not linked to personally identifiable information.

## (b) Cookies

A cookie is an element of data that a website can send to your browser, which may then store it on your system. We use cookies in some of our pages to store your preferences and record session information. The information that we collect is then used to ensure a more personalized service level for our users.

Please refer to our Cookie Policy for the exact information on how we use cookies.

Information collected from cookies is used by us to evaluate the effectiveness of our site,

analyze trends and manage the platform. The information collected from cookies allows us to determine such things as which parts of our site are most visited and difficulties our

visitors may experience in accessing our site.

With this knowledge, we can improve the quality of your experience on the platform by recognizing and delivering more of the most desired features and information, as well as by resolving access difficulties. We may also use cookies and/or a technology known as web bugs or clear gifs, which are typically stored in emails to help us confirm your receipt of, and response to our emails and to provide you with a more personalized experience when using our site or allow third-party service providers to do this. Your continued use of this site, as well as any subsequent usage, will be interpreted as your consent to cookies being stored on your device.

## (c) User feedback form

Our feedback form requires you to give us contact information (e.g., your name and email address) so that we can respond to your comments. We will use your contact information from the registration form to send you information about our company. Your contact information is also used to contact you where necessary.

## (d) Site tracking

- All our statutory entities operate according to the region of our users. For more information in this regard, you can get in touch with our support team.

### A Keynote: Risks Related To Trading Virtual Assets:

Trading of virtual assets and cryptocurrencies involves significant risk. The credit goes to the volatility factor involved in trading. Meaning, the virtual asset market is highly volatile. Such financial fluctuations bring uncertainty.

The value of cryptocurrency and reduced demand could be affected significantly by several factors. The list includes but is not limited to the following:

- The loss of confidence in cryptocurrency.
- Changes in the development of software.
- Decisions by the government.
- Development of competitive cryptocurrency.
- Technical issues
- Political as well as non-political statements.
- Statements by influencers.
- News
- Hacker-attacks.

You stand a good chance to lose your virtual asset if you lose or forget one of the following:

- Password
- Username
- Private key

- **Security code**

The lists of all risks related to the trading of virtual assets and cryptocurrencies cannot be defined in this single document.

Digital currencies have special risks. These risks generally do not have any relation with the following:

- **Official currencies**
- **Commodities**
- **Tangible goods.**
- **Goods registered in the official registry.**

Cryptocurrency assets are assets that are intangible and decentralized digital assets supported by technology or trust. Central banks or financial institutions cannot help protecting the value of virtual currencies.

Decentralized digital currencies are autonomous systems of firms and individuals launching cryptocurrencies are unregulated.

The risk of trading in cryptocurrencies could be significant. Therefore, you should be very careful and do some thinking before investing in cryptocurrencies. Do not forget to take your financial condition into account.

Keep the following to yourself only for the security of your account, virtual assets and money:

- **Username**
- **Password**
- **Security codes**
- **Private Key**
- **For the rest of the account-related information.**

Do not forget to change your password and other key information regularly.

## HCC Cookies Policy

### About this Policy

Our Privacy Policy explains our principles when it comes to the collection, processing, and storage of your personal information. This policy explains the use of cookies in more detail, such as what cookies are and how they are used. However, to get a full picture of how we handle your privacy this policy should be read together with our Privacy Policy.

### What are cookies?

Cookies are text files, containing small amounts of information, which are downloaded to your browsing device, such as your computer, mobile device or smartphone, when you visit our website or use our services. Cookies can be recognized by the website that downloaded them — or other websites that use the same cookies. This helps websites know if the browsing device has visited them before.

We use two types of cookies: persistent cookies and session cookies. A persistent cookie lasts beyond the current session and is used for many purposes, such as recognizing you as an existing user, so it's easier to return to us and interact with our services. Since a persistent cookie stays in your browser, it will be read by us when you return to one of our sites or visit a third-party site that uses our services. Session cookies last only as long as the session (usually the current visit to a website or a browser session).

### Do I need to accept cookies?

No, you do not need to accept cookies. But please be advised that if you do not accept cookies the service might be difficult or impossible to use.

### Analytical Performance Cookies

Analytical performance cookies are used to monitor the performance of our website and services, for example, to determine the number of page views and the number of unique users a website has. Web analytics services may be designed and operated by third parties.

The information provided by these cookies allows us to analyze patterns of user behavior and we use that information to enhance user experience or identify areas of the website, which may require maintenance. The information is anonymous, cannot be used to identify you, does not contain personal information and is only used for statistical purposes.

### Advertising Cookies

These cookies remember that you have visited a website and use that information to provide you with content or advertising which is tailored to your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. The information collected by these cookies may be shared with trusted third-party partners such as advertisers.

We may update this Cookie Policy from time to time for operational, legal or regulatory reasons.
